

## SUSTAINABILITY POLICY

ASGOV

CENIBRA understands sustainability is reached when a business generates value to its stockholders and other stakeholders. With this in mind, the company sets out guidelines and objectives to promote integration of economic, social, and environmental aspects into its business strategies through structured governance. In this respect, the implementation of such guidelines and objectives is based on the following commitments:

1. Providing a healthy, safe work environment with positive impact on employees' and contractor personnel's motivation, skills, and development;
2. Strengthening and conducting business in a legal, ethical, transparent way;
3. Acting as a catalyst of socioeconomic development and cultural appreciation of the communities within the company's areas of operation;
4. Strengthening the employment and qualification of local workforce and suppliers;
5. Establishing actions to optimize and reduce the consumption of water and other natural resources in the production processes and properly treat generated effluents;
6. Using renewable energy sources and limiting or reducing emissions of greenhouse gases (GHG), odor, and particulate matter and enhance the carbon sequestration by planting forests and adopting sustainable stewardship practices;
7. Managing planted forests in integration with native ecosystems and taking into account biodiversity protection and conservation;
8. Ensuring the efficiency, availability, and proper use of energy and other inputs in the production processes;
9. Reducing waste generation in the industrial and forestry processes and adopting proper waste disposal from the technical, economic, and environmental standpoints;
10. Monitoring and anticipating global sustainability trends and contributing to achieving the United Nations Organization's (UNO) Sustainable Development Goals;
11. Fostering process innovation through research and development of new technologies;
12. Pursuing financial results and performance while ensuring the business long-term continued existence and consolidating the company as a viable investment for its stockholders.
